OIG: 21 Percent of Physician Visit Payments Inappropriate

Medicare plans an education push after a government watchdog found that 21 percent of the program's payments for evaluation and management (E/M) were inappropriate. [Read More](#)

Medicaid Adds 6 Million Enrollees

Medicaid programs nationwide added 6 million more people during the recent Affordable Care Act (ACA) enrollment period to bring one in five Americans into the program, according to a new federal government tally this week. [Read More](#)

Health Care Spending Could Grow in 2015

The stronger economy and increasing numbers of newly insured consumers are fueling the spending increase, which is expected to continue through next year. [Read More](#)

Greenville Health taking over Oconee Medical Center

Oconee Medical Center will become part of the Greenville Health System. As part of the 50-year lease arrangement, Greenville Health will assume Oconee Medical's \$80 million in long-term bond debt and a statement said job reductions in Seneca are likely to continue.
